NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.

TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case.

Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 157 Prince Street, (few blocks West of Broadway) New York; from 11 o'clock in the morning till 2, and from 6 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for, to the ruin of the health of a vast portion of the population.

TRIESEMAR No. 3—Is the great European remedy for that class of disorders which unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as administered* by Valpeau, Lalleman, Roux, Ricord, &c. &c. Price $3 each, or four cases in one for $9, which saves $3; and in $27 cases, whereby there is a saving of $9.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer; thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernicious imitations. The three-dollar cases sent as usual, but not free of carriage.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.
A. NICHOLAS, President. Office 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent, for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no alteration can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts. a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation, Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

500 Agents Wanted

A Homestead for $10.
THIRD DIVISION.

$310,000 WORTH OF FARMS & Building Lots, in the Gold Region of Culpepper County, Va., to be divided among 10,000 subscribers, on the 7th of December, 1857. Subscriptions only *ten dollars* down, or fifteen dollars, one half down, the rest on the delivery of the deed. Every subscriber will get a building Lot or a Farm ranging in value from $10 to $25,000. These FARMS and LOTS are sold so cheap to induce settlements, a sufficient number being reserved, the increase in the value of which will compensate for the apparent low price now asked. Upwards of 1251 Lots are already sold and a company of settlers, called the *Rappahannock Pioneer Association*, is now forming, and will soon commence a settlement. Ample security will be given for the faithful performance of contracts and promises.

Nearly 47,000 acres of land, in different parts of Virginia, now at command, and will be sold to suit buyers at from $1 up to $500 per acre. *Unquestionable titles will in all cases be given.*

WOOD CUTTERS! COOPERS! FARMERS! Agents wanted.

1,500 Agents to obtain subscribers, to whom the most liberal inducements will be given. Some Agents write that they are making $200 per month. For full particulars, subscriptions, agencies, &c., apply to E. BAUDER,

LINCOLN'S
WATER PROOF BLACKING,
AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth, that when the feet are often wet, it is one of the greatest causes of colds and consumption? It's a truth that when leather is often wet and dried it soon becomes hard, stiff, and cracks; but when its water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but likewise soften the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of the time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

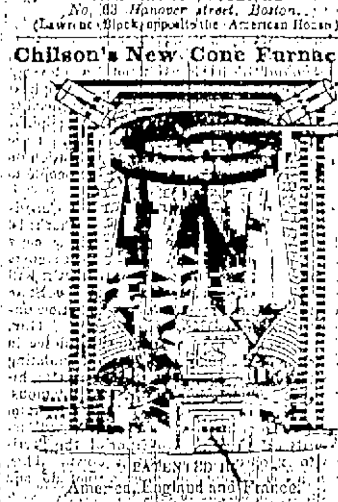
Chilson's New Cone Furnace.



PATENTED IN America, England and France.

THE thorough and highly satisfactory trial of a large number of CONE FURNACES, in use during the last cold winter, has proved it an invaluable invention, which far surpasses all plans before known for the purpose of heating. The manner of holding, or keeping back the smoke and gases in a chamber of cones (or *superheating radiators*) near the fire, into which the formerly wasted products of combustion are returned and completely consumed. The consequent *unparalleled economy of fuel*, and *great heating power*, combined with simplicity, and ease of management, and its *solidity, strength and durability*, is making a complete revolution in the science of house-warming, despite the immense efforts made by persons whose pecuniary interests are to be affected by its general use. We are not afraid that all who can see or obtain correct information concerning the *Cone Furnace*, will not be likely to use any other apparatus.

This Furnace has received the highest commendations from all, and especially from persons of the *greatest scientific knowledge*, in such matters. It received the First Premium, and the *only gold medal ever awarded a Furnace* (*a Gold Medal*), at the last fair of the Massachusetts Mechanics' Association held in Boston. We have as usual, a full assortment of Chilson's well known "*Trio Portable Furnaces*, and *Trio Stoves*, Cooking Ranges, Mantels, Grates, Registers, Ventilators, &c., and continue to give personal attention to erecting Furnaces, Ranges, and the ventilation of buildings in every part of the country.

How the English propose to Pay their War Expenses.

The London Times proposes, in view of the enormous cost of the new Indian expeditions that India itself shall be required to pay the expenses. Previous to this outbreak, and the recent Chinese and Persian difficulties, the English people were promised a speedy reduction of taxation—but the prospect of any relief is now more dubious than ever. The Times consequently says:

> It the inhabitants of these two islands are to bear every charge which is incurred by the treachery or turbulence of any race throughout the empire, a time must come when people will begin to listen to those who declare that a country has no business with dependencies, that we should cut our colonies adrift, and have no other than commercial relations with any spot beyond the four seas.

The people will be very likely to take this view. Meanwhile the Times points to the hoarded wealth of the rich Hindoo and Mahometan merchants, (who, it says, have absorbed £40,000,000 or $200,000,000 of the precious metals from Europe within eight or ten years only), and proposes, as a short and convenient mode of paying the expenses of reconquering the country, that forced contributions shall be exacted from this source. The ethical propriety of this proposition on the part of our honest English cousins is perhaps not readily seen. The fact, (which the Times cites) that these Indian merchants have been prudent and saving, and have thus amassed fortunes of millions, does not seem exactly a justification for plundering them—even in the view of the Yankees, whom the Times evidently considers a very dishonest people because they cannot just now pay their debts.—The proposed plundering of the rich Hindoos has a smack of the old English method taken with the Jews in the thirteenth century or thereabouts—but we don't remember of seeing any recent English justification of that method, on the score of justice or honesty. Then again, the Times represents industriously that the rebellion in India is only an affair of the Sepoys—that the great body of the people of India have had nothing to do with it, and are entirely satisfied with British rule. It does not appear, according to the Times, that the rich merchants have afforded any aid or comfort to the rebels. In this view, the propriety of making them pay for reinstating the English is not perceptible to eyes that are not English. On the contrary, it seems to our unenlightened minds, that the British people are rather indebted to the enterprising Indian merchants in the matter of trade. If the Indian merchants have made money the British merchants have made more, out of the same trade—and British manufacturers have also grown rich in consequence of the facilities afforded by these Indian merchants in the disposal of many millions worth of British goods annually.

If India is worth anything to Great Britain it is as a commercial dependency; and if England cannot afford to make the actual rebels pay their expenses, the most honest thing she can do is to abandon the concern, and save her taxes in an honest way.

We wish to say to every person who reads this, that there is an article known as Dr. Sanford's Invigorator, or Liver Remedy, which can be relied on as certain to cure liver complaint in any of its forms, such as Jaundice, Dyspepsia, and numerous other complaints, described in another column, besides which it is one of the greatest preparations or cures for consumption, taken in early stages, that is now known.

We take it for granted, as experiment has proven, that diseases of the lungs are not generally the first cause of consumption, but a debilitated system; caused by the improper action of the liver, reduces the power of the lungs to resist or throw off diseases caused by cold and irritation, leaving the lungs at the mercy of one disease, because the liver has incapacitated them from performing their proper action of throwing off diseased matter caused by cold, thus to prevent consumption, cause the liver, and keep the system strong enough to throw off slight diseases of the lungs.

There is not in the world a better liver remedy or a cure for debilitated system, than Dr. Sanford's Invigorator, for it has been fully tried in a large and extended practice till its results are fully known, and now it is offered as a tried remedy, and one that can be relied on.

LOCAL AND MAINE NEWS.

Yesterday Coroner Field held an inquest on the body of Patrick Bradley, who was found drowned in the Penobscot river at Gidding's dock. Verdict, accidental drowning by falling into the river while in a fit.

A Smash.—Yesterday afternoon an excited individual from the rural districts, was *amplifying* his horse in the street in front of Messrs. Tompkins & Morris' jewelry store on Main Street, when the animal reared and plunged head foremost through the large glass of the window, to the great astonishment of the driver and the occupants of the store. He was backed out.

Personal.—Hon. Hannibal Hamlin and lady, and Hon. Israel Washburn, Jr., started for Washington yesterday morning.

Caught.—Yesterday, David Inman was brought before the Police Court, charged with breaking into a store at Oldtown a few weeks since. He was bound over to appear to-day for trial. Officer Walker and others have been in pursuit of him for some time past, and yesterday a despatch was received from Frankfort, stating that a man answering his description was in that vicinity. Orders for his arrest were sent, and in a few hours he was arraigned before the Police Court in this city.

Mrs. Bradley's Concert.—Mrs. Bradley's Farewell and Benefit Concert, last evening, at the Unitarian Church, was an exceedingly successful affair. The character of the audience was highly flattering to Mrs. B., and showed the high estimate which is placed upon her musical talent, by the appreciating portion of the community. The music was of a high order, and the performances were perfectly satisfactory. In her departure from this city Mrs. Bradley leaves many warm friends.

Dr. Payne had a fine robe stolen from his horse, standing in the street on Friday evening last.

The Burning of Two Idiots.—The telegraph announced the burning of the Poor House in Leeds, together with all its contents and two inmates. These were two girls named Mary Ann Bridgham, and Mary Frizell, both idiots and paupers, and about 25 years of age. Mrs. Mason discovered that the two girls had not come out of the house, and she endeavored to persuade them to leave. But they would not and before she could obtain assistance, it was too late. After the building fell, their bodies could be distinctly seen burning in the midst of the fire. It was a bitter cold night; and many of the paupers had lost their clothes.—One old woman was found under a stone wall, partially naked and almost frozen. Those who were present describe the scene as dreadful to behold.

The President and Gov. Walker.

The Washington correspondent of the New York Times says that a split is threatened among the democracy on the Kansas question—Buchanan standing at the head of one faction, and Walker of the other. But we don't believe Walker will stand in opposition to the administration. The correspondent says:

> The President insists that as the Constitutional Convention was authorized by Congress, he is bound to sustain its action, whatever it may be; while Walker holds that the application of his doctrine, to sustain the refusal to submit the entire Constitution to the popular vote, amounts to the simple assertion of the right of Congress to force any Constitution on the Territory, instead of leaving the people to decide for themselves.
>
> Gov. Walker has never yet seen the Constitution, and nobody outside knows what it is. All efforts of the Governor to obtain a copy failed. There is reason to fear that the signers will be driven from the Territory; that it will be considered spurious, and that the State Government never can be put in operation under it, unless by the Federal arms. Gov. Walker declares that he cannot acquiesce in the action of the Convention without violating every pledge he ever gave, and sacrificing his honest convictions to make himself infamous. If resistance is made to the establishment of the State Government, the President will necessarily call upon the Governor of the Territory to exercise force to put it down. This, with his sentiments, Walker cannot do and will not, nor will he resign.
>
> If the President considers this duty to force the Constitution directly contrary to the spirit of the Kansas-Nebraska Act, in support of which Walker risked his political future at the solicitation of the Executive depend upon it the President will be compelled to assume the responsibility of removing the Governor.

Important Inventions.—*Safety of Letters and Gold at Sea.*—Mr. Josiah Foster, of Sandwich, Mass., has just brought before the public an invention of his for securing the safety of gold and valuable papers, in cases where the vessel in which such matter is transported is lost at sea. It is called the "Patent Marine Safe and Metallic Mail Bag." The following is from a report of the Committee, in Boston who examined it:

"The safe exhibited by Mr. Foster was about the size of a medium-sized mail bag, and so constructed that it must remain perfectly water-tight though it should be pressed under the water and kept there for years. When filled to its utmost capacity with mail matter and thrown overboard, it floated upon the water like a cork; and to test the extent of its buoyancy it was afterward loaded with two hundred and thirty-six pounds of stone, and it was then sufficiently buoyant to buoy up two men. The loss of so large an amount of gold and the mails by the foundering of the Central America suggested to Mr. Foster the idea of a marine safe, which he has succeeded in perfecting; and which needs only to be seen, and the buoyancy of it tested, to convince of its utility, and the importance of its being brought into general use in the transportation of mails whenever conveyed by water; and without doubt it will be substituted for the leather bags now used, as soon as submitted to the inspection of the Post Office Department. After an examination of this safe, our astonishment at its buoyancy is only exceeded by our astonishment that something of the kind has not long since been introduced."

National Expenditures.—The Treasury estimates of appropriation for the next fiscal year have been made up, and despite every effort to reduce them, the total amount estimated is about seventy millions. The estimate for the War Department alone is twenty and a quarter millions—being largely increased by the anticipated Mormon War. The total Naval estimates, including the special service and the construction of the new steam sloops-of-war, amount to fourteen millions. Secretary Cobb still thinks that the Treasury will not be compelled to resort to loans or treasury notes.

The Feeling in Kansas.—The following is the latest intelligence we have from Kansas direct. It is from the correspondence of the Chicago Tribune:

"The excitement in Leavenworth on the subject of the bogus Constitution is intense.—A meeting was held there last Saturday which was addressed by Gen. Lane, Mr. Parrott, and other prominent Free State men. Mr. Henderson of the Leavenworth Journal, one of the framers of the Constitution, indiscreetly made his appearance in the hall. The excitement and indignation were so great that the officers of the meeting had great difficulty in restraining the people from visiting him with the punishment of treason against liberty on the spot.

Another meeting will be held at Leavenworth on the 28th, to decide whether to vote at the constitutional election *or fight.*"

The Foreign News.—From the details of monetary intelligence we extract the following from the London Times of the 13th, in regard to the suspension of the Bank Charter act.

"The Bank Charter act is abrogated. Its fate at its second time of trial has been the same as at the first. The English government have resorted to the notification that the bank is authorized to extend their issues on approved securities without regard to the amount of bullion in their vaults at a rate of not less than ten per cent.

Although the announcement will give immense relief from fears which were rapidly spreading, there can scarcely be an Englishman who will not receive it with deep regret from the humiliation which it involves. It must have resulted from one or two causes, either blind fright or an inherent unhealthy condition of business which prevented our merchants from sustaining themselves against a rate of discount such as is borne in Paris, Hamburg, and a number of other centers of commerce. In either case the conclusion is equally lowering to our fame as a mercantile nation. It is satisfactory to believe that the measure was neither asked for nor recommended by the Directors of the Bank of England, or any delegated representatives of the leading mercantile or banking firms.

At the same time, in justice to the government it must be admitted that the period had obviously arrived when protective steps of some kind had become absolutely necessary. The position of the Bank of England and the private banks was never one of higher confidence, but the apprehension was evident on all sides that a withdrawal of deposits from the discount houses and joint stock banks might commence at any instant, and totally cripple their power to continue further accommodation; that the Bank of England from the point to which their reserve has been brought by the sudden sweeping away of two millions of gold for Ireland and Scotland, could in such case afford no adequate help, and consequently that if a resistless panic was not to be considered as having actually commenced, we were in a position in which no one could calculate on its being kept off even for a single hour."

On the 14th the times city article says:

"The condition of the various markets to-day has shown a considerable resumption of steadiness, although there has been no tendency to great confidence or a rapid revival."

The Bank Panic at Glasgow.—One gentleman, during the heat of the excitement, went into the Union Bank and presented a check for £500. The teller asked him if he wished gold. "Gold!" replied he. "No, give me notes, and let the fools who are frightened get the gold." Another gentleman rushed into the same bank, in a great state of excitement, with a check for £1400. On being asked if he wished gold, he replied, "Yes." "Well," said the teller, there is £1000 in that bag, and £400 in this one." The gentleman was so flurried by the readiness with which his demand was granted that he lifted up the bag with the £400 only and walked off, leaving the £1000 on the counter. The teller on discovering the bag laid it aside for the time.—Later in the day, the gentleman returned to the bank in great distress, stating he had lost the bag with £1000, and could not tell whether he dropped it in the crowd or left it behind him on leaving the bank. "Oh, you left it on the counter," said the teller quietly, "and if you will call to-morrow, you will get your £1000."—*Glasgow Bulletin.*

Too Young to Leave her Mother.—The Nevada (Cal.) Democrat chronicles the following incident:

"One of the little domestic episodes which will occasionally occur in the best of regulated communities, happened at Orleans Flat last Tuesday. A young man has become smitten with the charms of a young miss, and the attachment being mutual, the hand of the girl was asked in marriage. The girl's parents objected, for the reason that they considered their daughter too young to assume the cares and duties of married life, and the match was consequently broken up, or at least supposed to be. On Sunday last, the young lady dressed in short clothes and pantalets, started for Sunday school. On her way to the school house, she stepped into a store, where her lover, with a palpitating heart, and a justice of the peace were in waiting, and in less than a twinkling a knot was taken on the old folks, and the twain were made one. The young wife, we understand, is not quite thirteen years old."

A Widower's Perplexity.—A disturbance of somewhat unusual character took place yesterday morning. A fine old gentleman of sixty-five, who has been a widower for eighteen months, Mr. Fothergill, having become tired of his solitary condition, advertised for a wife, stating, according to custom, the qualifications which applicants for the situation were required to possess. The advertisement could not have been more than two hours before the public, when a brisk widow, Mrs. Rachel Morrison by name, might have been seen ascending the steps of Mr. Fothergill's residence, in eighth street. This lady, remembering the proverb that 'the early bird catches the worm,' presented herself for the advertiser's inspection almost as soon as there was daylight enough to answer the purpose; and to reward her business-like alacrity, she proved to be the first competitor for the prize.

Mr. Fothergill, being a man of mercantile habits, is very prompt at making a bargain, and moreover, is not very hard to please.—Having examined Mrs. Morrison's credentials, he seemed to decide that she would suit him exactly, and the whole affair was about to be concluded, to the satisfaction of all parties, when a hard pull at the door bell announced another arrival. Almost immediately, a second lady entered the room and glanced around apprehensively, as if afraid that she had come too late. She was a thin, elderly, female, whose name afterwards proved to be Miss Naoma Price. "Are you the gentleman who advertised for a wife?" said Miss Price as soon as she entered. Before Mr. Fothergill could reply, Mrs. Morrison answered for him, "Yes, madame, he advertised; but I reckon he is supplied." "I spoke to the gentleman myself, madam," answered Mrs. Price sharply, "and I suppose he knows his own mind." He made a declaration of his intentions before [illegible], said Mrs. Morrison. "I think you must have misunderstood him, madam," [illegible] Miss Price. [illegible] Price, "I never found it difficult to obtain one," exclaimed Mrs. Morrison; "and—wish to have you understand that I have had two already." "Oh!" cried Mrs. Price "I see your husbands were much to be pitied and I don't wonder that their lives were of short duration."

While this altercation was going on between the two ladies, Mr. Fothergill looked and listened with extreme embarrassment. Possibly he could have been happy with either, "were the other dear charmer away"—and he seemed totally unable to decide which deserved his preference. The contest between the rival candidates was carried on with increasing bitterness, until the hand of Miss Price, while performing an energetic gesture, happened to touch the somewhat protuberant nose of Mrs. Morrison. What followed we would gladly suppress, but, for the sake of making an accurate report, it is necessary to say that the bonnets of both ladies were demolished, and their faces rather badly scratched. Mrs Morrison made a charge of assault and battery against Mrs. Price. That the scene we have described made some impression on the mind of Mr. Fothergill may be judged from the circumstance, that when giving in his evidence at the Mayor's office he signified his determination to remain single for at least six months longer.—*Philadelphia Press, Nov. 17.*

A Fast Story.—An Englishman was bragging of the speed of English railroads to a Yankee traveler seated at his side in one of the cars of a "fast train" in England. The engine bell was rung as the train neared a station. It suggested to the Yankee an opportunity of "taking down" his companion a peg or two.

"What's that noise?" innocently inquired the Yankee.

"We are approaching a town," said the Englishman. "They have to commence ringing about ten miles before they get to a station, or else the train would run by before the bell could be heard! Wonderful, isn't it? I suppose they haven't invented bells in America yet?"

"Why, yes," replied the Yankee, "we've got bells, but can't use them on our railroads.—We run so tarnal fast that the train always keeps ahead of the sound. No use whatever; the sound never reaches the village till after the train gets by."

"Indeed!" exclaimed the Englishman.

"Fact," said the Yankee; "had to give up bells. Then we tried steam-whistles, but they wouldn't answer either. I was on a locomotive when the whistle was tried. We were going at a tremendous rate—hurricanes was nowhere—and I had to hold my hair on. We saw a two-horse wagon crossing the track, about five miles ahead, and the engineer let the whistle on, screeching like a trooper. It screamed awfully, but it wasn't no use. The next thing I know, I was picking myself out of a pond by the road side, amid the fragments of the locomotive, dead horses, broken wagon, dead engineer, lying beside me. Just then the whistle came along, mixed up with some frightful oaths that I had heard the engineer use when he first saw the horses. Poor fellow! he was dead before his voice got to him! After that we tried lights, supposing these would travel faster than sound. We got some so powerful that the chickens woke up all along the road when we come by supposing it to be morning. But the locomotive kept ahead of it still, and was in the darkness, with the light on close behind it. The inhabitants petitioned against it; they could not sleep with so much light in the night-time. Finally, we had to station electric telegraphs along the road, with signal men to telegraph when a train was in sight, and I have heard that some of the fast trains beat the lightning fifteen minutes every forty miles. But I can't say as this is true—the rest I know to be so."

A Grandmother at Twenty-nine Years of Age.—A woman who was recently brought before the magistrates of Wigan, for an assault committed upon a neighbor, affords a striking instance of recklessly early marriages. She is the wife of Patrick Casey, a tailor. They reside in Douglas Terrace, Wigan. He is forty years of age, and she is twenty-nine. They were married before she had attained the age of fourteen years, and she was a mother at the age of fourteen years and seven months. Since that time she has had eleven other children. Strange to say, the eldest girl, who was fifteen years old a few days since, is the mother of two children, the elder of whom is nearly two years of age, she having married earlier in life than her mother. Mrs. Casey is, therefore, at the age of twenty-nine years, the mother of twelve, and the grandmother of two children.

National Paradoxes.—Somebody once remarked that the Englishman was never happy but when he was miserable; The Scotchman and Frenchman is never at home but when he is abroad; and the Irishman is never at peace but when he is fighting; while the Yankee is never easy unless he is driven to death by business.

DIED.

In this city, Nov. 29th, Elizabeth F., wife of Isaac A. Hatch, aged 37 years.

In the death of Mrs. Hatch there has passed away from us one greatly esteemed and beloved. Her habits were retiring, her course hidden and noiseless; but those who knew her intimately, saw in her a mind clear, solid, discriminating, and well refined by culture; a remarkable strength of purpose; a fixed intentness to do whatever was regarded as lying in her sphere of duty; at the same time a lowly estimate, a shrinking diffidence and distrust of her own powers; very tender sensibilities, and a quick and responsive sympathy with suffering, ever desiring to confer happiness as widely as she could; ever showing a strict and pure conscientiousness, careful of her words, uttering only words of kindness, keeping back those that might wound the character or feelings of others. These and such like qualities were found in her, because hers was a christian character—its highest excellencies to be ascribed to grace. And hers were the supports of the christian hope in that slow but sure process of decay. She was not exultant on the approach of death, perhaps she too severely judged herself for this. Severity of personal inquisition was characteristic of her. She saw nothing in herself to rest on. She rested solely and sweetly in the merits of her Savior, and to him she clung. Her last day on earth, the holy Sabbath, she spent, amid her struggles for breath, in receiving this blessed words, which were then her support and her all. And when the Master, at length, came suddenly, she met him with a smile, and slept in death.—[Com.

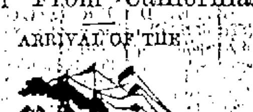
TO THE DAILY WHIG AND COURIER.

Later From California.

ARRIVAL OF THE



Northern Light,

AT NEW YORK.

BOSTON, Nov. 30.

The steamer Northern Light, which arrived at New York last evening, brought over $2,000,000 in specie, and 603 passengers.

The news is meagre, and mainly anticipated by the Daniel Webster at New Orleans.

The News from the Plains, relative to the late Indian massacres, strongly implicates the Mormons.

Brigham Young had declared the independence of Utah, and stated that henceforth Utah owed no allegiance or obedience to any laws but those of their own enactment.

A project was on foot in California to create a new territory out of the Great Basin between the Goose Creek Mountains on the east, the Sierra Nevada on the west, and between the Oregon and Utah line on the north, and the Colorado river on the south.

The "Gaceto Official" of Nicaragua contains a declaration of war against Costa Rica.

Preparations for war are in progress.

A Defaulter Arrested for Robbing the Mail.

NEW YORK, Nov. 30.

Wm. S. Tuckerman, late defaulter as Treasurer of the Eastern R. R., was arrested last night near New Haven on the N. Y. & Boston Sunday night train, for robbing the mails. He is now in New Haven jail, and has confessed.

The arrest of Tuckerman will probably explain the missing Havana mail for the State of Maine, and other important mails which have recently failed reaching their destination.

SPRINGFIELD, Nov. 30.

The evidence against Tuckerman is conclusive, and it is understood he confesses his guilt.

He has been in the habit of taking the Sunday night Boston train from New York, carrying with him a large trunk, empty, with the exception of a carpet-bag filled with clock-weights, to make it appear heavy. During the temporary absence of the baggage-man from his car he would steal a mail bag and place it in his trunk.

His examination takes place at New Haven to-morrow morning.

He acknowledges that he has $500 worth of stolen postage stamps, and $500 on the Lee, (Massachusetts,) Bank, were found upon him.

The Philadelphia mail for Boston has been the one usually stolen, and the superintendents of the various railroads between New York and Boston, together with Special Ag't Holbrook and several postmasters, have been for some weeks laying plans, which at last ferreted out the robber.

The exact amount of his robberies can't be ascertained to-night, but they are supposed to be very heavy.

Great credit is due to Mr. Holbrook, who has been mainly instrumental in Tuckerman's arrest. The developments it is understood will be astounding, and the evidence is such as to ensure his guilt.

Monetary.

NEW YORK, Nov. 30, P. M.

Money on call is very abundant, and large quantities can be had on R. R. securities at 6 a 7 per cent, and on State stocks at 4 a 5.

The banks are discounting good notes liberally. The weekly statement will show an increase of about a million in specie.

Sterling exchange firm.

NEW YORK, Nov. 30.

The Russian Government has forbidden the taking of whales within the range of her Asiatic possessions, and has sent her vessels to protect the grounds.

The Weather.

NEW YORK, Nov. 30.

The weather continues warm, and a thick mist, amounting almost to a steady rain, has prevailed all day, and to-night it is quite wet.

The reports from the west leave no doubt but what the canal navigation will be resumed to-morrow or next day.

From Kansas.

ST. LOUIS, Nov. 30.

The steamer Lucy was totally destroyed by fire, on Wednesday last, while she bound at Detroit for the Missouri river. No lives were lost. The loss on the vessel amounts to $18000, and the insurance to $12,000.

A delegate convention of the free state party of Kansas has been called to meet at Lawrence on the 2d of Dec., to take into consideration the present political position of the territory, as well as the course to be pursued by that party relative to the new constitution about to be submitted for approval.

From Havana.

NEW YORK, Nov. 30.

The steamship Quaker City, from Mobile night of the 22d, and Havana at 6 P. M. of the 25th, arrived this afternoon. She has experienced very heavy weather, nearly the whole passage.

Nothing new from Havana. The health of the city is perfect. The stock of sugar on hand is reported at 142,000 boxes. Prices have declined, but without any regularity in figures.

Freights. There is no demand for large vessels. Those carrying from 600 to 2000 boxes for Europe, have been taken up at £2 5s a £2 15s.

The Quaker City has only $12,000 in specie on freight from Havana.

Railroad Accident.

BERWICK JUNCTION, Nov. 30.

An old man, name unknown, while walking on the track of the Boston and Maine Railroad, near this place, was instantly killed by a train to-day.

Various Matters.

COLUMBIA, S. C., Nov. 30.

Ex-Gov. Hammond was elected to the U. S. Senate to-day.

BALTIMORE, Nov. 30.

Ex-President Pierce was warmly received here to-day. An immense throng accompanied him to the Norfolk boat, and cheered him vociferously.

CHARLESTON, Nov. 29.

An arrival from the Bahamas reports several wrecks there. Two large vessels, unknown, dismantled, were at Nassau. Capt. Greer, of ship Ossipee, is a passenger.

New York Markets.

NEW YORK, Nov. 30.

Flour very dull and heavy—Common to strait State 4,80 a 4,85; Upper Lake 4,75 a 5,00; common to good Ohio 5,35 a 5,75; extra Genesee 5,70 a 7,00, closing with a strong tendency downward. Southern dull and drooping—Mixed to good 5,25 a 5,60; fancy and extra 5,60 a 7,00. Canadian quiet—extra 5,30 a 6,50.

Wheat nearly nominal.

Corn firmer—mixed Western 90; White southern 92 a 94.

Pork lower—Mess 18,00 a 18,50; prime 16,00 a 16,50.

Beef heavy—country mess 9,00 a 10,00; prime 6,00 a 7,00; repacked Chicago 13,00 a 13,75; prime mess 23,25.

Coffee—Rio 10.

Sugar very firm but quiet.

KANSAS AFFAIRS AT WASHINGTON.—*Washington*, Nov. 27. (Special to N. Y. Times.)—At the Cabinet meeting to-day the President stated Gov. Walker's position on Kansas affairs. The Cabinet unanimously united with the President in favor of sustaining the action of the Constitutional Convention in respect to the reference of the Constitution to the people, and to condemn Walker. The door to a reconciliation with Gov. Walker's position is now closed, and a bitter contest between the two wings of the Democracy is unavoidable.

Senator Douglas has been heard from. As the author of the Kansas-Nebraska Act he will take bold ground in support of Walker. This the President has not hitherto believed. Douglas holds that the refusal to submit the whole constitution to the people when they desire it, is the clearest repudiation of the doctrine of popular sovereignty.

Senator Gwin, though a decided pro-slavery man, is understood to be determined to sustain Walker. This is the universal sentiment from the Free State Democracy as received here.

Private advices from New Orleans express the greatest confidence on the part of General Walker's friends in the success of his present enterprise in Nicaragua; all, however, avoid stating the precise point of his contemplated debarcation. Walker left, still claiming his rights as President of Nicaragua, and determined, if any naval force attempted to interrupt him, to resist to the death; relying upon any power assuming this police duty on the high seas, the responsibility of sinking his vessel and crew.

Mothers! Mothers!! Mothers!!!

AN OLD NURSE FOR CHILDREN.—Don't fail to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on earth. No mother who has ever tried Mrs Winslow's SOOTHING SYRUP for Children, will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles are sold every year in the United States. It is an old and well-tried remedy.

Removal.

E. F. PLAISTED, M. D.

Physician and Surgeon,

Has removed his Residence and Office to Hammond Street, nearly opposite the Hammond Street Church, where he may be consulted at all hours, unless otherwise professionally engaged.

Dr. P. will continue to pay particular attention to diseases of the Chest, those of the Lungs, Throat and Heart. Two years almost exclusive attention given to these diseases, under the most eminent German physicians in Philadelphia, and his thorough knowledge of the science of Auscultation and Percussion, enables him to detect the slightest deviation in those organs from their healthy condition.

His experience and success in the treatment of Lung difficulties, especially, give great confidence in his ability to give most entire satisfaction to all who may request his services.

Patients coming from a distance, wishing to remain any length of time under his care, can be accommodated with apartments at his residence.

The Great English Remedy

SIR JAMES CLARKE'S

CELEBRATED FEMALE PILLS,

Prepared from a prescription of Sir J. Clarke, M. D., Physician Extraordinary to the Queen.

This invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject.

It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will in a short time, bring on the monthly period with regularity.

Each bottle, price One Dollar, bears the Government stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the first three months, as they are sure to bring on miscarriage; but at every other time, and in every other case, they are perfectly safe.

Sole Agent for the U. S. and Canadas,

JOB MOSES,
(Late I. C. Baldwin & Co.) Rochester, N. Y.

N. B. $1,00 and six postage stamps, enclosed to any authorized Agent, will ensure a bottle of Pills by return mail.

THE $15

DOUBLE LOCK STITCH

Family Sewing Machines

AT THE BANGOR HOUSE.

THE Citizens of Bangor and vicinity are respectfully invited to call at Parlor, No. 20, Bangor House, to witness the operation of these truly wonderful Family Sewing Machines. They sew with two threads, making the double lock-stitch, the firmest, strongest, and most durable seam made by the aid of machinery. They are the most simple in their construction, the most sure and certain in their operations, and the least liable to get out of order of any Sewing Machine yet produced, and unlike most of the high priced Machines, they are valuable for all kinds of Family Sewing, working equally well on the finest muslin or the heaviest pilot cloth.

The price, $15, places them within the means of all, the indigent as well as the affluent.

Orders for the Machines will be received at the Bangor House, from all who may wish to purchase them, where also County and State rights, for the exclusive sale of the same, may be secured on liberal terms. O. P. PRALL,

nov19tf General Agent.

P. S. There are three sizes of the above Machines, bearing prices as follows, $15, $20 and $25. Tables $5 extra. The Machines can be used without the table.

IMPORTANT DISCOVERY!

CONSUMPTION CURABLE

BY THE USE OF

TOUSEL'S PABULUM VITÆ!

The most powerful and effectual remedy ever discovered for the treatment of PULMONARY

CONSUMPTION.

This medicine is a choice combination of VEGETABLE products, and possesses all the rare medicinal properties so long and eagerly sought for by the profession. It is the result of diligent study and research through a long series of years, and is now, for the first time, presented to the notice of the public.

IN EVERY CASE of suspected PULMONARY CONSUMPTION, where it has been tried it has proved, beyond any doubt, to be an EFFECTUAL REMEDY. It is a very agreeable and pleasant medicine, and a trial of its virtues is earnestly recommended to every person who has a cough, or who may be predisposed to Consumption, as a remedy of no ordinary value, with the assurance that, if the directions which accompany it are faithfully adhered to, it will prove to be a SOVEREIGN BALM, restoring the healthy functions to all the organs of the body.

Directions in English, French, and German, accompany each package. Price $1 per bottle.

All orders by mail or express, accompanied by the money, will be promptly attended to.

Office, No. 5 Milk Street,
(Opposite the Old South Church,)
Boston, Mass.

N. B. A Treatise upon the *Nature, Causes, Symptoms, and Prevention of Pulmonary Consumption* can be had on application at the office of the Agent, as above, or will be sent by mail to any address. This Treatise will well repay a perusal. nov25'57 dly jb

EXTRACT of a Letter from a Medical Gentleman AT MADRAS TO HIS BROTHER at Worcester, May, 1851.

"Tell LEA & PERRINS that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable, as well as the most wholesome Sauce that is made."

The only Medal awarded by the Jury of the New York Exhibition for Foreign Sauces, was obtained by LEA & PERRINS for their WORCESTERSHIRE SAUCE, the world wide fame of which having led to numerous imitations, purchasers are earnestly requested to see that the names of "LEA & PERRINS" are impressed upon the Bottle and Stopper, and printed upon the Labels.

FLOUR,

Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat*, for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double cooled before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour of four different qualities, in unbolted wheat meal, and in shorts. A car load, 100 bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing 196 lbs in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels, as is the case with nearly all the wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No. 27 West Market Place.

COAL

MacGregor's Ventilating and Gas Burning

STOVES.

THE reputation which this Stove has attained in the United States during the past six years, is a sufficient guarantee of its character as a complete Philosophical Mechanism, superior to either Hot Water or Steam, because of its simplicity, its easy management and control, and more especially its economy and the mild and healthy atmosphere it generates and diffuses.

The heat is thrown into the large cylinder drum of the air chamber, and thus does not become so heated as to burn or destroy the oxygen of the atmosphere. They can be regulated as to give any degree of heat required; and unlike other Anthracite Coal burners, ventilate the apartments quite as thoroughly as a wood fire on open franklin.

The fire may be continued from one to three days without replenishing, and for months without clearing out or requiring the use of charcoal or wood to re-kindle.

16 pounds of coal has been found sufficient to warm a common sized apartment twenty-four hours in the coldest weather.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. P. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin,	$1,25
Fare on Deck,	1,00

Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

Alpine Hair Balm,

—FOR—

Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the Hair and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials and all to no use. Hair dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years trial has perfected this Balm. It is soothing and emollient, allays all irritation of the scalp, thereby stopping the troublesome itching. It cures Dandruff, and Scurf, and when the hair has turned gray it will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair dyed. If you examine gray hair that has been colored for a week, you will find, towards the roots, that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, through which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair.

It is a mistaken notion that oil, or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease.

DR. SANFORD'S

INVIGORATOR,

OR LIVER REMEDY

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purposes of any cathartic, without the debilitating effects experienced from most purgatives. It acts slowly and gently, but surely, moving the bowels to carry off all the secreted matter, at the same time stimulating the *Liver* to a proper performance of its functions.

The Invigorator cures Sick Headache. Take one or two teaspoonful at the first attack, and it will soon disappear. For an overloaded stomach, or when food rises or sours, take the Invigorator after eating, and it will remove dis[illegible] or oppression. For Heartburn, Palpitation, or Difficult breathing, take a teaspoonful once or twice daily. For Loss of Appetite, Languor, or Listlessness, the medicine is invaluable. It will restore the appetite and make the food digest well. Nightmare, take a teaspoonful on retiring, and the demons of dreamland will all be foiled. After eating a hearty dinner, take a dose of Invigorator, and it will remove all oppression or fullness. The Invigorator is a Liver Remedy of unequalled virtue, acting direct on that organ, curing Dyspepsia, Jaundice, Bilious Attacks, Dysentery, Piles, Worms, and all Female Obstructions, for which it has no equal.

We know there is nothing new, before the American public, prepared with such skill by a scientific man, particularly for diseases of the Liver, as Dr. Sanford's Invigorator, or Liver Remedy. It has attained a reputation second to no other article in the world, simply, because it rests on its own merit. To convince all by trial that it is all that its proprietors claim it to be, if any of our readers are suffering from any such disease as are described in Dr. Sanford's advertisement, we know of no remedy that will so surely cure them as the Invigorator.

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in Diseases of the Liver, Stomach and Digestive organs. It came to us with so many testimonials in its favor that we have noted its effects in some of the worst cases of continual debility, caused by deranged liver, and in every instance the effect was to relieve or give a permanent cure. Dr. Sanford's Liver Invigorator is what we refer to. We always have been credulous about cures by patent medicines, but we are convinced that this medicine, for family use, is not overrated by the host of recommendations in its favor. Our advice is, for all troubled with Indigestion, Debility or Bowel Complaint, to get a bottle and try it; our word for it, relief will be experienced.

Blessings to the Invalids who use Dr. Sanford's Invigorator, for it will relieve them of their pains as soon as it is taken into their stomach. Pain and misery cannot exist where the Invigorator is used, for it will surely drive them away, as daylight will banish darkness,—of this there can be no doubt to those who try it, for it carries conviction with every dose taken. Another evidence is the thousands of certificates from those who use it, or have been cured by it. Try one bottle—if it does not benefit, then we are mistaken.

DR. SANFORD'S

INVIGORATOR,

or Liver Remedy.

THIS IS ONE OF THE GREATEST SCIENTIFIC Medical discoveries ever made, and is daily working cures almost too great to believe. It cures as if by magic, even *the first dose* giving benefit, and seldom more than one bottle is required to cure any kind of *Liver* Complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a *Diseased Liver.*

The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions. When the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with Liver Complaint in any of its forms, has but to try a bottle, and conviction is certain.

A compound has been formed by dissolving gums and extracting that part which is soluble for the active virtues of the medicine. These gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the causes of the disease, and effecting a radical cure without any of the disagreeable effects felt by using Calomel or Mineral Poison, that are usually resorted to.

To all who will follow these directions a cure is positively guaranteed. Sick Headache can be cured by the use of two teaspoonsful, taken as soon as the attack is felt.

The Invigorator never fails to cure sour stomach or the bad effects experienced after eating.

Bilious attacks yield to one bottle, and Chronic Diarrhœa, difficult as it is to cure, is never troublesome to those who take the Invigorator.

For Dyspepsia or Jaundice, nothing in the known world acts so fully or cures so quickly as the Invigorator. It removes all yellow and unnatural color from the skin.

For Night Mare, take a dose before retiring, and it is warranted a sure preventive.

For Female Obstructions it is a safe and sure remedy, as it removes the cause of the disease.

Costiveness cannot exist where the Invigorator is freely taken, while Cholera yields readily to a few doses.

It must be known that all these are *Liver* diseases or caused by a deranged *Liver*, and to cure them needs a LIVER medicine and one of great power. The Invigorator is such a medicine; it has medicinal powers, never before discovered, that will cure all ill cases of the *Liver*, no matter of how long standing, or what may be their form. The active medicinal virtues extracted from the gums used is such as to be astonishing to all who see their effects, for none can use the medicine without receiving benefit. It acts as a gentle cathartic, and should always be taken in sufficient doses to operate on the bowels gently. The best way is to take it is to take the medicine in the mouth, then take some water and swallow both together. In this way the medicine will scarcely be tasted.

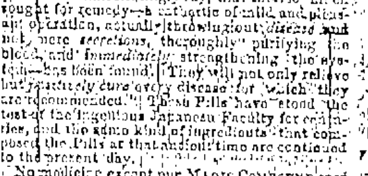
GRINDLE'S

ANCIENT AND CELEBRATED



JAPANESE LIFE PILLS,

NATURE'S OWN REMEDY.

A positive Cure for Liver Complaint and Bilious Disorders, Dyspepsia, Rheumatism, Scrofula, Cutaneous Diseases, Fever and Ague, Costiveness, Dysentery and Diarrhœa, Worms, Suppression of the Menses, Nervous Debility, &c.

FOR a long time we have been compelled to witness with painful emotion, the many adulterated and life destroying drugs made into pills and liquid medicines, and patients using them without knowing their injurious effects upon their system. This *monstrous evil* may now be entirely escaped by using only these ANCIENT JAPANESE LIFE PILLS and our MAGIC COMPOUND. For many years we have toiled hard to find a cathartic which, while it purged, would *throw out disease*, and not *mere secretions alone*, would *renovate and strengthen*, and *not deplete and weaken the system.*

We now unhesitatingly say, that this so much sought for remedy—a cathartic of mild and pleasant operation, actually throwing out *disease* and not mere *secretions*, thoroughly purifying the blood, and *immediately* strengthening the system—has been found. They will not only relieve but *positively cure* every disease for which they are recommended. These Pills have stood the test of the ingenious Japanese Faculty for centuries, and the same kind of ingredients that composed the Pills at that ancient time are continued to the present day.

No medicine except our MAGIC COMPOUND ever met with such unbounded success in so short a time; and the thousands of orders pouring in for them from all parts of the country is wonderful and astonishing! The number of these PILLS being used by females alone for their various complaints, constitutes in itself an immense trade.—They are not the "*female pills*," so much puffed into public notice, which, instead of curing, produce cruel and dangerous complaints, but are for male or female, old or young, and cure by acting directly on disease.

The PILLS are sent by mail, from the Proprietor only, on receipt of the price. The postage in the United States, not over 3000 miles, is fifteen cents on five boxes, which must be inclosed in money or stamps. We are responsible for all money sent us by mail.

Dr. Wesley Grindle's

CELEBRATED

MAGIC COMPOUND,

—THE GREAT—

Remedy for Pulmonary Consumption.

Also an effectual cure for Scrofula, Erysipelas, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on an impure state of the blood.

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other remedies put together. It has the greatest sale of any medicine in the world for *Pulmonary Complaints*, from Mainland the most retired dwellings of Oregon, or wherever Consumption is known, it finds its way, carrying health and joy into thousands of families. The most eminent physicians have been forced to acknowledge that it *does* cure Consumption, and they now use it in their practice as a standard and sure remedy.

There is no remedy equal to it in building up a system, that, under the influence of various diseases, hardships, or exposures, has run down or lost its natural tone and vigor. Its great secret is in its power to reach the blood, correct the vitiated fluids, and arrest the deposit of tubercle in the lungs; and it is as *safe* as it is *certain* in its action.

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask, Can your medicine restore a portion of lung that disease has entirely destroyed, leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure. If the treatment be commenced in season, but little or no portion of the lung is lost. It is necessary only to arrest the disease, and when this is done, the concrete substance concealed in the tissues of the lung, technically known as tubercle, becomes absorbed, leaving perhaps, a little calcareous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested at this early stage. The softened tubercle produces irritation; the irritation brings on inflammation of that part of the lung; the inflammation leads to ulceration, and the destruction of a portion of the tissue is the result; a cavity is formed which enlarges and does its work of death unless the deposit of tubercle is arrested. Now, does your remedy effect a cure? *Most assuredly it does.* As soon as the disease is arrested, the hurtful matter is absorbed or expectorated, and nature either furnishes the cavity with a lining membrane, or, what is more common, where it is of large size, its walls fall together and heal up, leaving a scar, and the remaining portion of the respiratory apparatus, true to a law running through the whole physical economy, becomes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost.

Prices.—One box $3,00; three boxes, ordered at one time, $8,00; half dozen, $14,00; one dozen, or any number greater, at the rate of $2,00 a box.

The postage in the United States not over 3000 miles, is fifteen cents a box; over 3000 miles, fifty cents a box. In all cases the amount should be inclosed in money or stamps. I am responsible for all money sent me by mail.

No. 8, Broad, near State Street, ... *Boston.*

Supply the best, finest and purest articles, at the *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, Allspice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum or Prepared Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure* and *genuine*, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our scale of prices, we annex the following scale of prices, viz:

5lb. Souchong Tea	1,75	5lb. Mocha Coffee	[illegible]
5lb. Oolong Tea	2,00	5lb. Java Coffee	[illegible]
6lb. Y. Hyson Tea	2,50	[illegible]	1,00

☞ The Spices are put up in ¼ and ½ lb tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee*, as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this Coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark and may be relied upon as the best and most approved mixture of Dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the genuine article. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or not as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article called Taraxacum in the market.

☞ To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock, and our prices, as compared with those of any other house.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under Act of 1837,)

76 State Street, opposite Kilby-st.,
BOSTON,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

[From the present Commissioner.]

"AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON,
Com'r of Patents."

THE LUXURY AND PROFIT OF

HONEY MAKING.

☞ **Torrey's Bee Hive.**

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business, to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarm, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted, in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

☞ For sale, fifty swarms of Bees, with the new hives.

For hives, individual rights, &c., address

R. S. TORREY,
Fifth street, Bangor.
